Biographical Overview

Charles Baudelaire (1821-1867) was a French poet, critic, and essayist whose work revolutionized poetry and influenced countless artists and writers. His tumultuous life was marked by personal tragedies, financial struggles, and a persistent battle with mental health issues, which many scholars suggest contributed to the themes of decadence and decay in his poetry.

Baudelaire's early life was characterized by a rebellious spirit and a desire to break away from traditional literary forms. His most famous work, *Les Fleurs du Mal* (The Flowers of Evil), published in 1857, challenged societal norms and was controversial for its explicit content and exploration of taboo subjects such as sexuality, death, and despair.

Understanding Baudelaire's Mental Health

The concept of "folie" or madness has been a recurring theme in analyses of Baudelaire's life and

Baudelaire's letters and contemporaneous accounts describe periods of profound melancholy, hallucinations, and erratic behavior. These aspects of his personality have been studied extensively in the context of his creative process, leading to the notion that his "folie" was both a curse and a catalyst for his poetic brilliance.
